

# BUSINESS PRESENTATION

BM2 Industri A/S specializes in CNC machining of large components, delivering precise solutions to the industry.

# AGENDA

- About BM2 Industry
- Our Key Points
- Our Facilities
- Machine park at BM2 Industry
  - Milling
  - Turning
  - Drilling

# ABOUT BM2 INDUSTRY

- Founded in 1955 by K. V. Christiansen (as Bøvling Maskinværksted)
- Focus was on development and production of machines to the Agriculture and industrial sector
- Large piece production began with the production of permeation plant
- The production required a vertical turning mill
- The Machine trian has since then escalated.

# OUR KEY POINTS

- Educating employees through courses etc.
- Ensuring competence of employee through Performance appraisal
- Consistency between price and quality
- Being a trustworthy partner
- Having Real and Fair Policies
- Ensuring employees well being

- Employing Dedicated, Motivated and Skilled People
- Simplifying working processes
- Having a dynamic company, constantly evolving and improving

- Ensuring a high quality level through our ISO 9001: 2015 quality system
- Evaluate new possibilities through the latest technology
- Keeping up with the latest technology
- Improving by analyzing the Customer Satisfaction Survey
- Having an ongoing dialog

# OUR FACILITIES

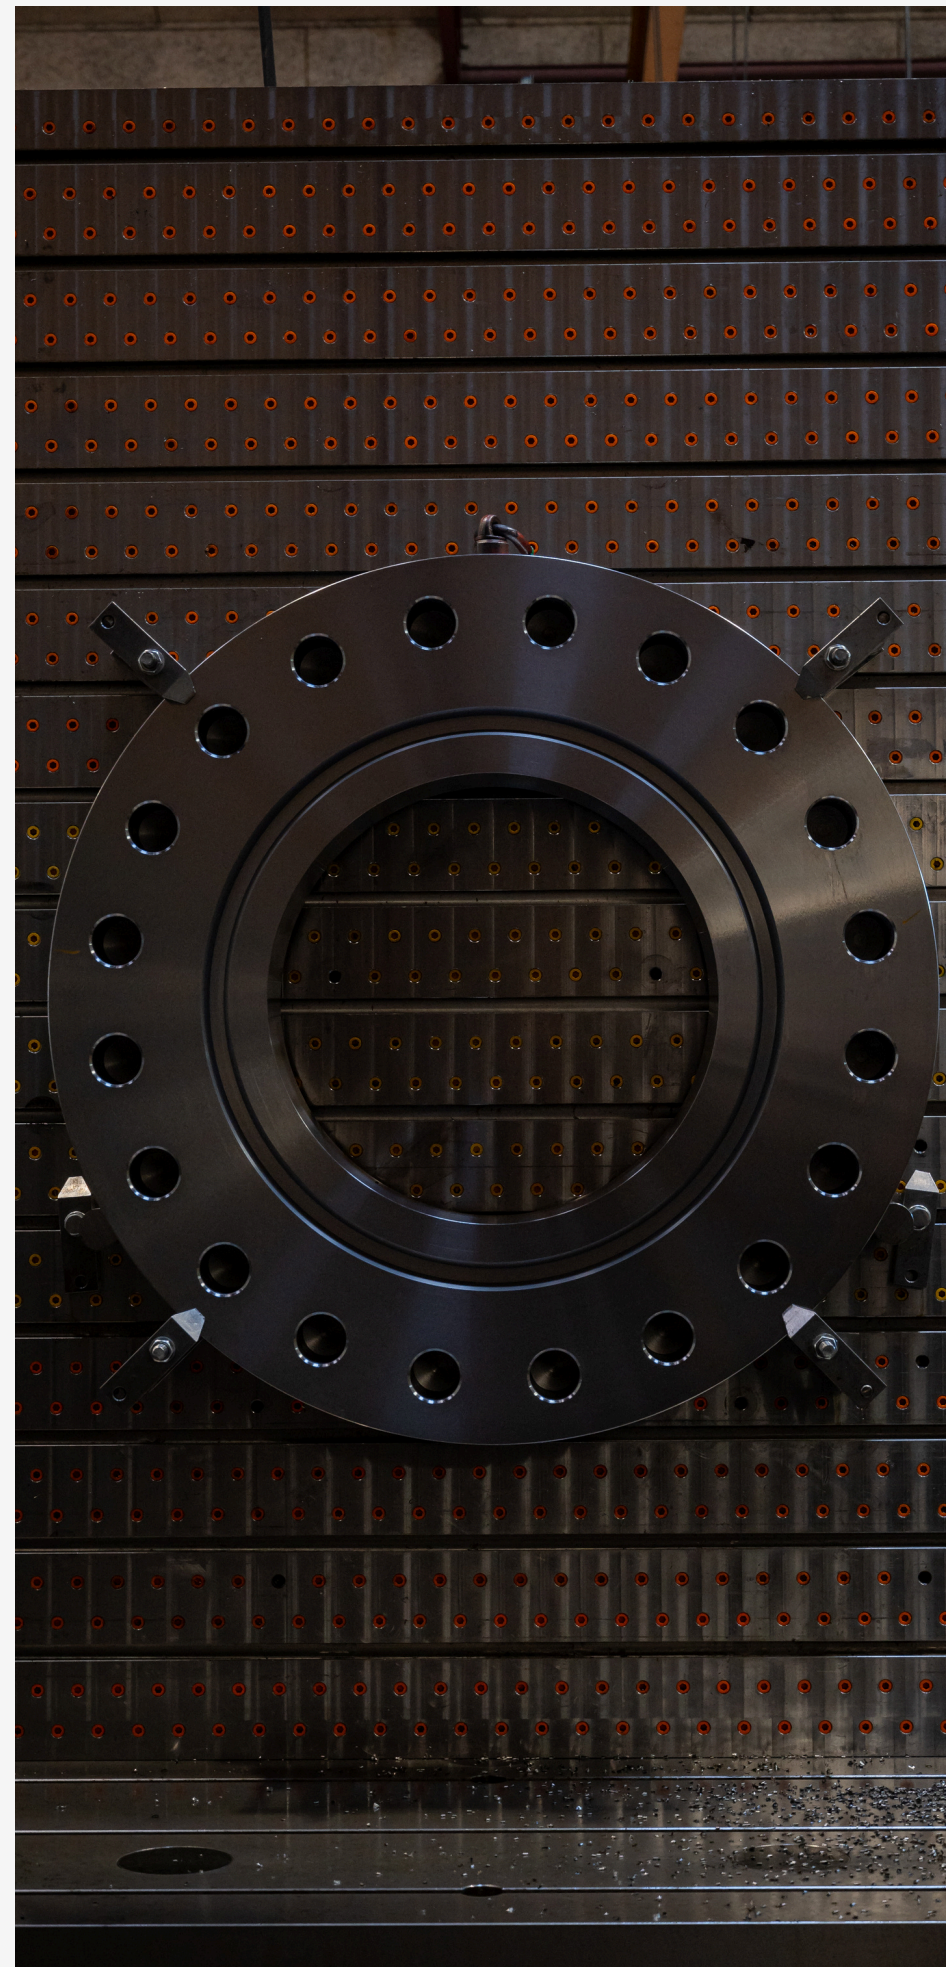

- 2100 m2 divided into 2 Halls
- 6 Lathes
- 1 Drill Machines
- 2 Milling Machine

# OUR MACHINE PARK

- Goodway GV1600M
- Carousel lathe with rotating spindle
- Table dimensions:  
Ø250 – Ø1800 og 1300mm

# OUR **MACHINE PARK**

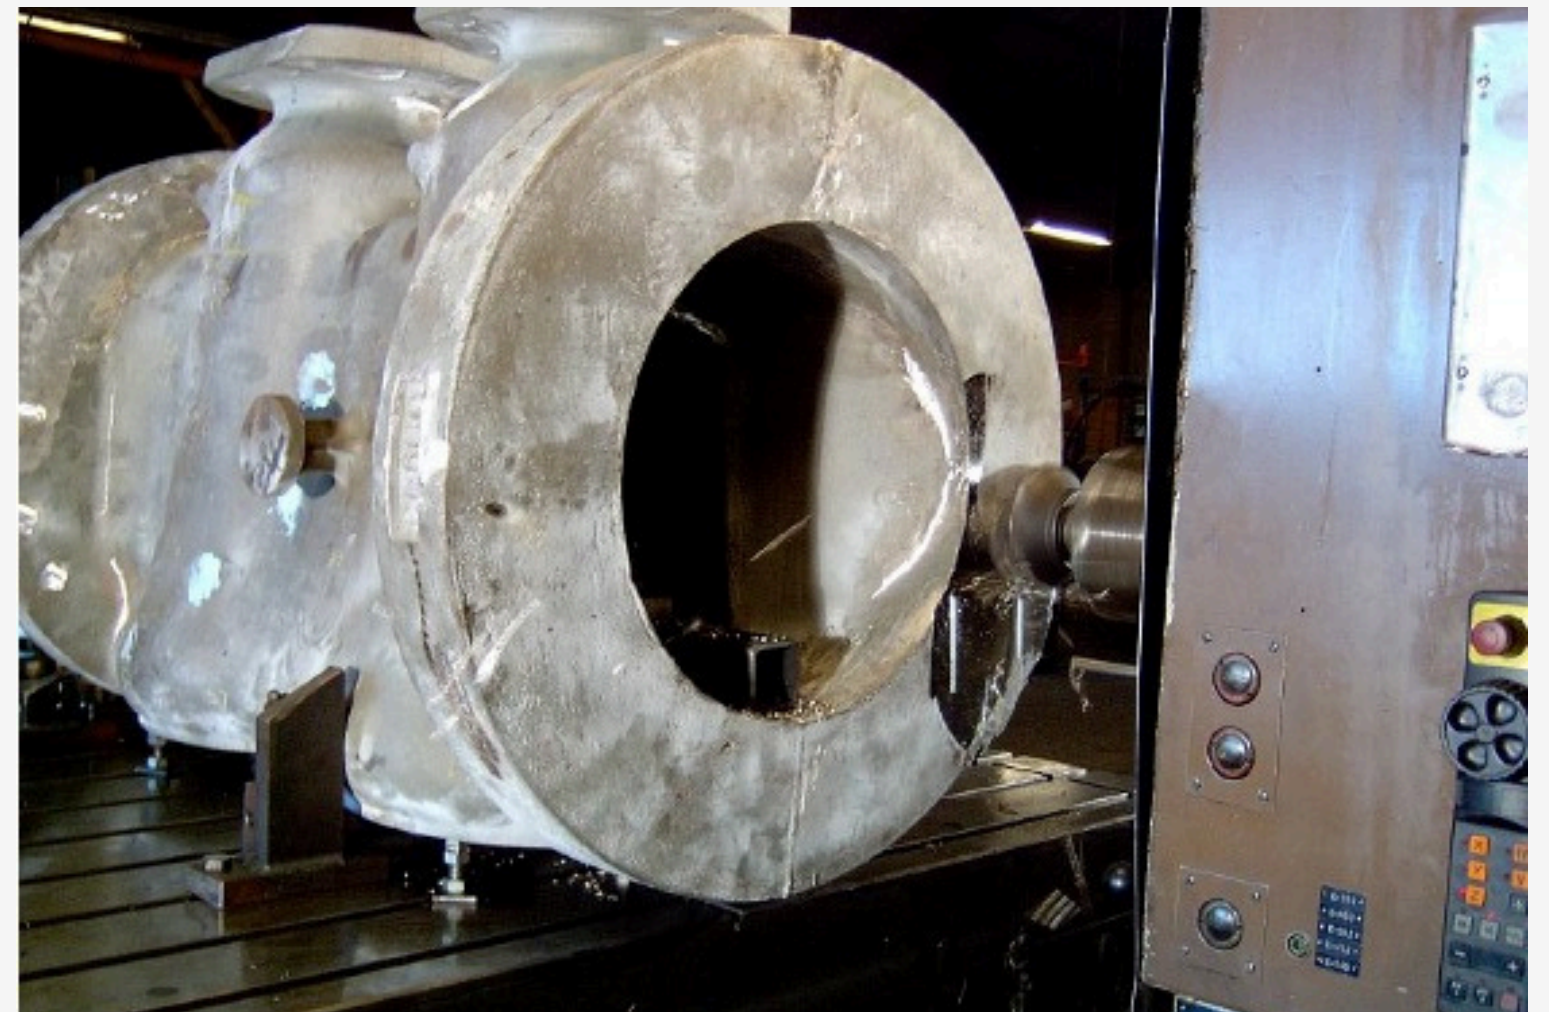

Drilling/Milling machine

- Table dimensions:
  - 1800mm x 2600mm
  - Axces
  - X6500 Y2500
  - Z700 W730
  - V2000
  - micro indexing head up to approx. 20 Tons

# OUR **MACHINE PARK**

## Drilling/Milling machine

- Table dimensions:
  - 1800mm x 2250mm
  - Axces
  - X3000 Y2000
  - Z1600 W600

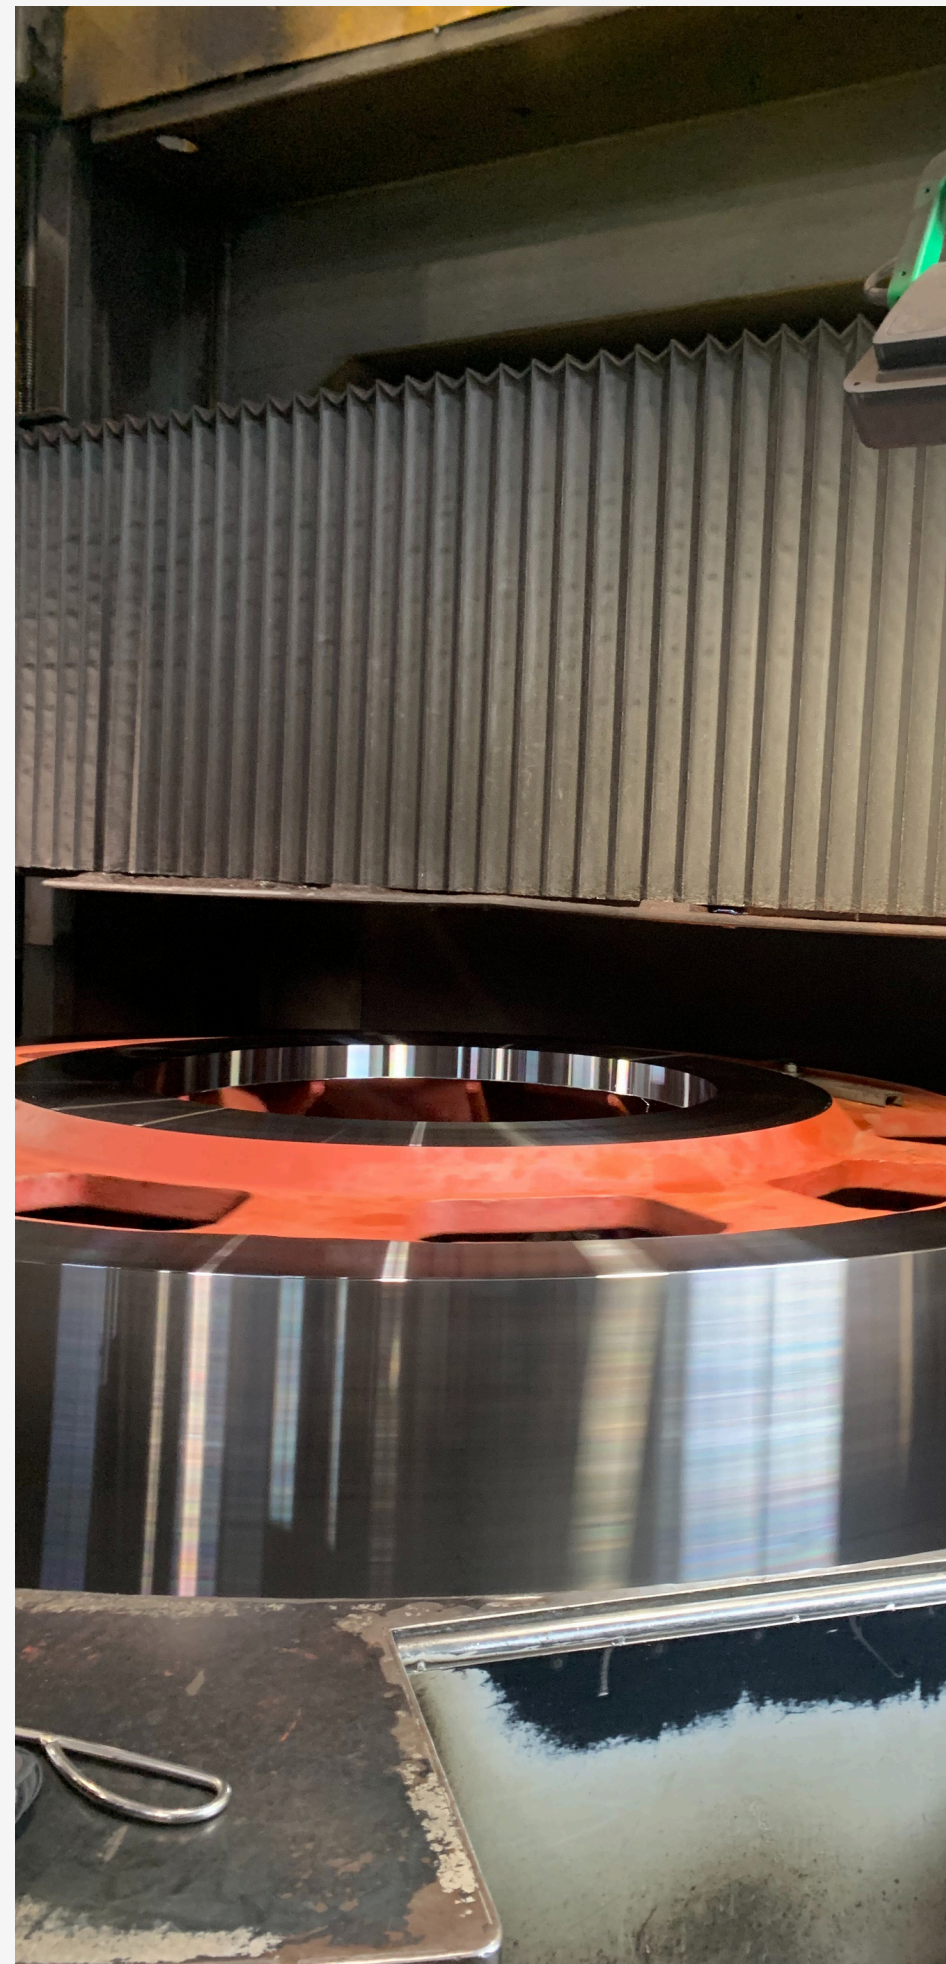

# OUR MACHINE PARK

## Drilling/Milling machine

- Turning/Milling machine
  - Lathe machines up to  $\varnothing 4200$  mm
  - Machines are CNC controlled (Siemens 840D)
  - 1 Manual controlled Lathe

# OUR **MACHINE PARK**

Drilling machines

- which are able to handle,  
items up to 4200 mm

# THANK YOU FOR YOUR ATTENTION
